or contact JGebert@ccde.org

Live Auction presented by: Larry E. Woods, CAI, BAS, CAGA
Auctioneer/Appraiser
Benefit Auction Specialist

This event supports Oakstone Academy which is a private school (preschool through grade 12) chartered by the State of Ohio that offers an alternative to the run-of-the-mill school experience. Thanks to talented, highly-qualified teachers and small class sizes, Oakstone Academy can meet the needs of a variety of learning styles. In fact, Oakstone is the only school in Ohio (and we believe the nation) that was founded on the principle of providing a truly inclusive environment for children with autism spectrum disorders, allowing them to be full participants in the classroom with peers who do not have disabilities.

In order to meet the needs of all of our students, the educators at Oakstone Academy have developed a program of excellence for average and as well as gifted students. Our inclusive setting has been a rewarding success for all of our students: those on the autism spectrum learn how to socialize and interact with others while students without disabilities learn about compassion and leadership.

The Children's Center for Developmental Enrichment (CCDE) is a non-profit 501 c 3 organization dedicated to:

- Providing excellent educational programming for all children while researching the effectiveness of an inclusion model for those with ASD.

- Supporting and educating families in order to promote a holistic approach to the education of children with ASD.
- Promoting cost-effective training and support to area school districts and professionals in the community.

These original goals established in 1999 continue to define the services provided by the organization today. Over the years, CCDE has grown into a multi-faceted resource that includes a private school, programs for parents and children, therapies and research.
